

**National Ski Patrol**  
**OEC Delinquency Roster Interpretation of 'D' Codes**  
**July 2015**

The Delinquency roster will be a living/live document showing the OEC status (per the NSP database). This report will be run nightly against the database. With the OEC cycles being June 1 – May 31, all members will be reported as in need of the current year's refresher as of June 1<sup>st</sup> each year (D2). Then as their OEC refresher completion is keyed into the database they will come off this list. The report will show their OEC course and refresher completion status for their three year period of certification. It will also show a description as to where they are or what is missing.

**D-1 (or Null). OECDelinquent NoInitialOECCourseTaken** – No OEC course can be found.

Note - Currently the D1's are listed on a separate report called the D1 Report. Also note that members registered as Candidates do not show on the report, so PD's need to keep track of getting their candidates into an OEC course.-+

Needs Initial Course

**D-2. OECDelinquent Standard** - Member did not complete a required Refresher by December 31. These members appear on the NSP OEC Delinquency report so Patrol Directors can remind patrollers that they need to complete a Refresher(s) and which one(s).

Note – with this being a living document and the refresher cycle starting June 1; each year as of June 1 all members regardless of their 'next cert date' will show D-2 status until their refresher for that refresher cycle is completed.

Needs Current Cycle Refresher

**D-3. OECDelinquent MakeupRequired** - Member did not complete the required Refresher by May 31 (end of the Refresher Cycle). NSP will move to offering another cycle in the A->B->C process. Member will now need take a "makeup refresher" to fulfill the requirement. A makeup may be scheduled, and the target makeup cycle period will be recorded.

Missing Refresher – Makeup Required

**D-4. OECDelinquent AtComplianceCheck** - NSP performs a "3-year OEC Compliance Check" to determine if the Member is missing any or all of the past 3 year's refreshers. (This is done before a member can be issued a new card, and have a new Expiration Date rolled forward). If the Member does not have all three (3) Refreshers (A,B,C) by their 12/31/XXXX expiration date, member will require makeups for any or all of the missed refreshers. They have one (1) year past their expiration date to make up missed refreshers.

Card Expired – Missing Refresher(s)

**D-5. OECDelinquent OECExpired** – Member delinquent one year after Expiration Date has passed. This member is required to take OEC Initial Course over to become compliant. This member's OEC credentials should be considered "Revoked pending OEC (Initial Course) Course Completion"

OEC Card Expired > 1 year – Retaking of OEC Course is Required
